- Willing to relocate: Anywhere
Authorized to work in the US for any employer

Work Experience

Welder/ framer

Dillman Design - Oregon City, OR

October 2016 to August 2017

Structurally reinforced buildings all around the Portland metro area. I was hired on as a welder but quickly learned I was going to be doing much more than just welding. I learned how to frame new buildings and reinforce old buildings using tie downs, anchors, and straps. I also did structural welding on many buildings.

Welder/Fabricator/yard crew

Greenberry Industrial - Vancouver, WA

December 2015 to August 2016

I started out as shop help. learned various skills like forklift driving, sky tracks, genie boom lifts, scissor lifts, and rigging and crane operating. I also did some welding on various structures that we built ranging from oil drilling rigs to locks for the Dalles Dam, to nuclear power plant platforms.

Special Projects/ Welder

G Mason Trucking - Aumsville, OR

September 2013 to December 2014

Responsible for good strong welds on trucks and trailers. Welding extensions on trailers for hauling hay. Cutting off damaged utility boxes and fabricating and welding new ones back on. Fixing cracks and rusted out cross members and walls on trailers and replacing with new metal. Painting trucks and trailers and various other parts. Routinely inspecting trucks and trailers for any needed repairs. Responsible for maintaining safe, clean work environment.

Guard rail fabricator/ Welder

Pacific Stair - Brooks, OR

June 2013 to September 2013

Cutting, bending, and fabricating guard rails, hand rails and stairwells (Pipe and square tubing) Reading blue prints and tracking product as they are produced. Organizing product by numbered code and job. Quality checks. Fork lifting raw steel and transporting product to paint shop.

Repair Pipe Welder

EVRAZ North America - Portland, OR

Repaired up to 9 inch sections on 36 inch oil pipe.

Skills Used:

Communication, data entry, grinding, pre-heating to specification, multi-pass stick welding, and polishing, then it went through 4 different inspections to insure my quality welds.

Education

1 year completion certificate in welding program in metallurgy/welding.045 dual 3g & 7018 stick 3g/blueprint

Chemeketa Community College - Salem, OR

September 2012 to June 2013

Skills

Painting (10+ years), Certified welder (5 years), frammer (1 year), Management (4 years), Forklift Operator (10+ years)

Certifications/Licenses

certified welder

.045 flux 3g

7018 stick 3g
