Rebecca Ayers

Human Resources Manager
Braun Northwest
150 Northstar Drive
Chehalis, WA 98532

Dear Rebecca,

I am submitting this cover letter and resume in response to the Project Coordinator position posted on the Braun Northwest website.

I feel that I would be a great fit as a member of the Project Coordinator team at Braun. Prior to starting my career at Braun, I spent 23 years in the US Navy where I learned that being a good coordinator means that you must be able to speak multiple “languages” to effectively communicate with all levels of an operation. Here are some examples of projects that I have coordinated or roles that I have held during my career:

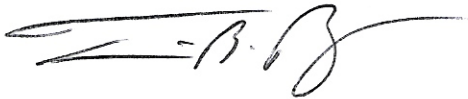

- Lead for five multimillion-dollar cable repair operations involving the coordination of several government agencies from the Department of Defense and the Ministry of Defense along with the contractors involved in the operation.
- Woman in Submarines coordinator – USS Ohio’s lead for a ground-breaking time in the submarine force, required the coordination of several departments and submitting design changes for the submarine to allow for then newest members of the submarine force.
- Recognized by Rear Admiral David Johnson for my coordination of a 1.5-million-dollar emergent repair to a vital ship system while forward deployed.
- Modernization Training Team lead – This role required the ability to take customer input (Submarine Fleet), communicate that to the designers and engineers and then train the fleet on the final product.

Along with all the skills that I learned coordinating and leading during my time in the Navy, I still maintain an active security clearance investigation which could be useful in dealing with our Military customers. My time at Braun on the production floor has shown me the vital importance that coordinators play in taking a customer’s needs and translating that into a vehicle

that is delivered to their expectations. I believe I have the knowledge and skills that can be a great asset to the coordination team.

Thank you in advance for taking the time to review my information, I look forward to further discussing this opportunity.

Sincerely,

A handwritten signature in black ink, appearing to read 'Travis B. Rogers', with a long horizontal flourish extending to the right.

Travis B. Rogers
