Born-June 30th,1998. I am more than ready, to be the independent person I see myself becoming someday. I believe that if i just get the chance to show myself, my employer, also everyone around me how i am a driven, independent, hard, sensitive worker. Also not only that but trying me trying my best the whole time, knowing I put effort into it all. Makes me feel like I'm in control of a little of my life. Thatbl'm finally working on me, my life. Its hard to get going but once i do i know ill do great.

Authorized to work in the US for any employer

## Work Experience

---

### **Press Operator**

Carroll's Printing - Chehalis, WA

November 2017 to May 2019

I was the material maker, organizer, and cleaner. I operated and cleaned all the machinery, the digital work was in the care of the owner. I delt with the merchandize, and the materials,and all the product. The customers and I always communicated in one way or another, the deliveries were done by me. When I had first walked into the print business, I had no clue what a press was now, I can fully operate the machine by myself. I turned out to look at a lot of things in a wider perspective because of it all. So my attention to detail is one of my best qualities.
