OBJECTIVE

To become an indispensable asset and valued employee by continuing to demonstrate my experience on the job, with ongoing training and education, supported by my strong work ethic and acquired skills.

EXPERIENCE

Volunteer Firefighter, Cowlitz 2 Fire & Rescue, Kelso, WA 2017-Present

Assist Paramedics on medical calls, respond appropriately to emergency calls, assist in various firefighting tactics during structure fires, pulling hydrants for structure fires, assist in vehicle entrapment situations, working with other various community outreach programs, & other community needs.

Millwright/ Electro Mechanical Technician, Owen & Illinois, Portland, OR 2015-Present

Maintenance of conveyors, pulleys, gearboxes, motors and PLCs, troubleshooting complex PLC, electrical, mechanical, and hydraulic issues, welding and fabrication of new and damaged parts, close teamwork with management and co-workers to solve production issues, proper lock out tag out procedures, inspection, maintenance, and set up of high speed glass container measuring equipment, & facility Maintenance.

Industrial Maintenance Technician, Siemens Energy, Roosevelt, WA/Roxbury, ME 2010-2015

Service crew lead, electrical, mechanical, and hydraulics maintenance and troubleshooting, 300ft daily climb to get to work location, proper safety & LOTO Procedures, team work.

Service Technician, LM Wind Power, Grand Forks, ND 4/2010-11/2010

Repairing Polyester blades with damage, leading and trailing edges up and down wind sides of the blade, tower climbing, team work oriented.

Batch/Furnace Operator, Cameron Family Glass, Kalama, WA 2008-2009

Control and distribution of power of 10 megawatt electric furnace, heavy equipment operator-CAT 980, 930G & IT14G Front-end Loaders.

Hot End Technician, Cardinal Glass, Winlock, WA 2007-2008

Managed flow of molten glass to keep up effective production rates.

Hazardous Materials Coordinator, United States Navy, San Diego, CA/ Sasebo, Japan 2003-2007

Ordering, handling, distribution, and disposal of all hazardous material aboard ship, deck Rigging, small craft handling.

EDUCATION

Lower Columbia College, Longview, WA EMT Training, 2018

Provide basic life saving techniques.

Administration of medicine for proper symptoms.

Advanced CPR.

Contradictions of medicines.

New England School of Metal Work, Bethel, ME 360 Hr AWS Welding Certification, 2014-2015

SMAW- All positions, machine settings for correct job, FCAW- Correct machine settings, all positions,

GMAW-Correct machine settings, all positions, GTAW-Some AC Aluminum, DC carbon steel, & stainless steel, Oxy-Acetylene cutting, & plasma cutting.

Cert# 1507400W

Siemens Energy, Orlando, FL Annual Training, 2010-2015

Safety & Proper LOTO, hydraulic maintenance, trouble shooting and schematic interpretation on systems of 200 bar, electrical maintenance, trouble shooting and schematic interpretation of 120/240/480 circuits, & management training.

Gravitec Fall Protection & Rescue , Seattle, WA Fall Protection Training, 2010

Harness & lanyard familiarization, manual & automatic descent devices, rescue tactics.

NorthWest Energy Institute, Vancouver, WA Wind Turbine Technician Training, 2009-2010

Hands-on/in-class training on rigging, technical writing, mechanical systems, electrical theory, inventory, hydraulics, & programmable logic control, educated in design, repair & maintenance demands of wind turbines, trained on operation & installation of tools used by the industry including multi-meters, vibration analysis, & laser alignment, educated on the importance of teamwork, safe working conditions, attention to detail, faith in equipment & value of integrity in the workplace.

Grade Point Average: 4.0

United States Navy, Great Lakes, IL/Ingleside, TX Recruit/Mine Warfare Training, 2003-2007

Electrical trouble shooting, schematic reading and interpretation, sea survival training, mooring of large deck ships and small craft, RHIB training, hazardous material handling, maritime knot tying, deck rigging.

SKILLS

Safety: CPR/ First Aid certified, OSHA-10 safety certified, forklift operator trained.

Rigging: Load weight calculations, load balancing, safe load turning, lifting methods, hoists, & mooring.

Electrical: Fluke multi-meters, AC/DC circuits, relay control, AC/DC motors, capacitance, inductance, troubleshooting , & installation of new components.

Mechanical: Laser alignment, Vibration analysis, Soft-foot correction, Shaft alignment, Heavy component replacement.

Hydraulics: Schematic interpretation, valve operation, performance analysis, troubleshooting.

PLCs: Basic programming, motor control, event sequencing, process control.

Welding: Proficient in SMAW, FCAW, GMAW, & GTAW, certified in SMAW & FCAW unlimited.

Cert# 1507400W
