Authorized to work in the US for any employer

WORK EXPERIENCE

Lead framer

Apg builders - Napavine, WA
September 2018 to October 2019

As lead framer it was my job to oversee the framing crew and make sure everything came out square and plumb and straight. It was also my job to keep tabs on material in stock and settle differences between the prints and reality with the design team.

Assembler

Braun northwest - Napavine, WA
April 2014 to March 2018

It was my job to design and install various emergency vehicle components. It was also my job to dismount old modules from their chassis, to be rehabilitated and put on new chassis. I was also MACS section 609 certified here this year.

Mechanic

Rose City auto group
September 2011 to November 2013

My job here was to diagnose and repair cars to be sold as well as customers cars. I also spent 1 day a week test driving cars at the dealer auction house in Portland.

Carpenter

Ada building
June 2006 to August 2009

- Construction Experience
- Basic Math
- Forklift

CERTIFICATIONS AND LICENSES

Mobile ac r134a cert.

April 2009 to Present

ADDITIONAL INFORMATION

I most recently built park model Rvs. I am very adaptable and enjoy a change of scenery and location. I work well on my own or in small groups. I am production oriented but attention to detail and not having any comebacks are incredibly important to me.
