Braun Northwest
150 Northstar Rd.
Chehalis, WA 98532

Dear Hiring Manager,

My name is Levi Lindeman and it is with great enthusiasm that I submit my resume for the Designer position. I have twelve years of experience in aerospace where I have held positions as a Mechanical Designer, Drafter and as a Customer Engineer/Technical Proposal Analyst, providing extensive support to the sales team. I also have three years of sales and service experience in the tire industry. I would be a great addition to the Braun Northwest team because I'm detailed, organized, personable and a quick learner.

Currently I am a Mechanical Designer and I have seven years of experience designing and drafting parts and full systems of medical equipment and accessories for air ambulances. I am experienced with sheet metal parts, medical devices, and 3d CAD modeling and drafting. I am also knowledgeable with certification processes to return an ambulance back to service.

While serving as a Customer Engineer/ Technical Proposal Analyst at LifePort, my priority was to provide customers with a positive purchasing experience and ensure customers were quoted the exact system that fit their requirements. I fulfilled my duties by offering creative and competitive proposal packages with 3D renderings. Often times my efforts, lead to contracts management did not forecast to win.

I offer Braun Northwest, an employee who is outgoing, detailed, organized, and personable. I am adaptable to different types of tasks and I work well as a team member and as an individual.

To further acquaint you with specifics of my background I am enclosing my resume. I hope I get the opportunity to meet you in person to discuss my qualifications in more detail.

Sincerely,

Levi Lindeman
