WORK EXPERIENCE

Rural Mail Carrier

USPS - Olympia, WA

January 2003 to Present

- Maintaining my own vehicles. Most repairs I've learned to do myself in order to save money, time and to upgrade parts from stock which includes, but is not limited to, anything brake or suspension related to replacing body panels
- Designed and built right-hand-drive pedal systems, both mechanical and electrical, for my Honda Pilot and two generations of Subaru Outbacks for mail delivery
- Quickly, efficiently and accurately sort and organize mail and parcels for the day's delivery
- Load my vehicle for delivery, sometimes requiring more than one trip from the post office to the route
- Deliver all mail and all parcels out of my personal vehicle by day's end
- Providing excellent customer service with accurate and timely deliveries, friendly and informative interactions, follow-ups on questions and requests, and by treating all customers with respect
- Maintaining a route of 600+/- addresses in and out of the office. This includes box orders, vacancies, new names and numbers, forwards, holds, and labeling to the physical condition of the boxes themselves and of the office area to ease the work for the substitute carriers

EDUCATION

Bachelor's in Electronic Music Production

The Evergreen State College - Olympia, WA
