Braun NW,

My name is Ben Yandrich and I was made aware by one of your workers that you have positions available, and I am interested in working in your assembly department.

I have worked in the fast paced production environment and believe that I could thrive and contribute much to the company. With that experience, I understand the importance of promptness, accuracy, integrity, and communication to get the job done quickly and efficiently. Other key strengths that I believe could benefit the department and company are:

- Desire to create quality product
- Ability to work in adverse conditions
- Extensive experience creating and completing projects in multiple elements

I thank you for your time and hope you consider my application.

You can contact me via Email or phone any time of the day.

Thank you for your time,

Sincerely,
Ben Yandrich
