glennreynolds@live.com

I have been in the collision industry for over 20 years, with experience in ground up operations in the industry. Our shop specialized in taking care of customers and attention to detail. This was a family owned and operated business that finally closed. With rent doubling we decided it was time to move on and were ready to move from the area.

Work Experience

Open/ Paint Department

01/1990 to 11/2019

Phil's Finishing Touch Inc.

625 S 96th St Seattle WA 98108

Full Service Collision Repair, Frame, Body, Refinish, Mechanical. Also specialize in complete paint and frame off restoration. Serving Washington State DOT, FBI, GSA, and retail.

A note here, i am very versatile. If you need someone to help in the welding department, or assist another tech while setting bodies i would be good with that. I have performed every task from writing an estimate for the job, to washing the vehicle for delivery, and handing the customer the keys.

Skills
