Rebecca Ayers, HR Manager  
Braun Northwest, Inc.  
150 North Star Drive  
Chehalis, WA 98532

Dear Rebecca,

I am writing you to express my interest in working as a press brake operator for Braun Northwest, Inc. I have 11 years of welding, fabrication and machine tool operation experience in multiple areas within the industry. I pay very close attention to details and feel that I would be a great candidate for the open position.

I have welded mild steel, stainless steel and aluminum in all processes (MIG, TIG and STICK) available. I have experience operating machinery necessary to bring raw material to finished product including press brakes, iron workers, manual mills, horizontal lathes and have some brief experience as a CNC machine tool operator. I have been certified in the past to operate a forklift and have some exposure to wiring 12V electrical systems.

I thoroughly enjoy welding and fabricating quality products that help others. I have made welding and fabricating my life and absolutely love being a skilled metal craftsman. I feel with my experience and ambition to continually become a better fabricator I will make a valued member to your team.

Sincerely yours,

Andrew Gustafson
