WORK EXPERIENCE:

Worked as the Transportation Director for Cleveland Public School District from June 2017 until June 2021.

Was responsible for all things related to transportation for the school district. This position included the responsibilities of supervising 15 drivers and a technician, hiring staff for the transportation department. Scheduling maintenance and repairs on a fleet of 24 buses and 12 school vehicles. Maintaining records for D.O.T. compliance. Established bus routes annually for safe transport of students.

- Worked as the lead mechanic and shop supervisor for WC Truck repairs from Dec 2015 until June 2017

Responsible for maintenance and repair work on waste refuse haulers. This position included the responsibilities of supervising the other technicians, scheduling work, assuring part and supply availability, as well as the design of numerous hydraulic and electrical systems still in place.

- Worked as a Repair and Maintenance Technician at Cleveland Service Center from Feb 2014 until Jan 2015

Responsible for day to day maintenance and repair of a variety of oil field equipment as well as light, medium, and heavy duty automotive work. I was also

responsible in part for inventory control as well as many of the other associated duties of a service writer and customer service representative.

- Worked as a Maintenance Technician and Welder for Yaffe Metals INC. from Sep 2009 until Feb 2014

Responsible for day to day maintenance and repair of cranes, loaders, forklifts, semi tractors and trailers, as well as many other various pieces equipment associated with a scrap metal processing plant. Also responsible for welding repairs on equipment as well as parts fabrication.

- Worked as Field mechanic in Superior Well Services from May 2008 until Apr 2009.

Responsible for scheduled and on call repairs of service equipment in the field as well as associated documentation and compliance.

- Worked as Repair and Maintenance Technician for John Christner Trucking from Jul 2004 until May 2008.

Responsible for repairs and maintenance on over the road tractors and trailers and insured readiness and availability of standby transportation equipment.
