To Whom It May Concern,

My name is Jerrit Chenier, I am applying for the position of assembly here at Braun . I was very excited when I saw the posting of this job on Indeed.com. I am interested in this position because I know I would fit in very well. Even though I may not have any job experience in this field I believe I would be a great fit for you and your team. I know myself to be a quick learning individual that will bring a positive attitude to the workplace each and every day.

I am 22 years old and a college graduate. I attended South Kitsap High School and Wenatchee Valley College where I received my Associates in Arts and Science. At WVC I was also a part of the college's baseball team. My educational and athletic career has created me to be someone who leads and enjoys contributing to a team. Since I have finished school, I commit a ton of my free time to being outdoors whether it's hiking, hunting, fishing, or just exploring the outdoors.

Over the last two summers I have worked for the Department of Natural Resources as a wildland firefighter. That job has taught me how to perform as an individual and as a part of a team. That job has also taught me alot about physical labor, how to be efficient with a variety of tools, and a great understanding of emergency response vehicles.

Thank you for taking the time to read over my application and for your consideration of me filling this position. I am frequently available throughout the day by either phone, or email and I will do my best to respond quickly if you have any questions for me.

Respectfully yours,

Jerrit Chenier
