Hiring Manager
Braun Northwest

Thank you for the chance to apply for the welder/fabricator position at your company, after reviewing the job requirements it is clear you are looking for an employee that will be able to quickly familiarize themselves with all responsibilities of the position, and be able to satisfy and exceed those expectations. As such I am certain I have the right knowledge and skills to exceed the expectations of the position.

I am currently a college student looking to gain work experience in my desired field of welding technology, for which I am pursuing the 2-year degree for at Centralia College. I have around 4 years of experience with welding and other metalworking skills through both college and a recreational lens, and almost a year of other job experience in various customer service industries where I learned much about quality control and upholding the standards of work and service. Whether working in an academic, professional, or extracurricular environment my skills in technical planning and organization will undoubtedly prove valuable in the role at your company.

After reviewing my resume, I hope you will agree that I am the type of candidate you are looking for, I look forward to elaborating on how my specific skills and abilities will benefit my coworkers and the company in this position and the opportunity to prove I have the skills to complete the work. Please contact me at (360) 562-3094 or Via Email at Illustrationswa@gmail.com to arrange for a convenient meeting time.

Thank you for your time and I look forward to hearing from you soon.

Sincerely,

Jeremiah Kiest
