Previous Experience

Worked for Discovery Team, a temporary work program hosted by the National Forest Service through White Pass High School in Randle, WA meant to give High Schoolers work experience

- 5 Week period in the summer of 2020
- Manual Labor 4 days a week Mon-Thu
- 7.5 Hours/day all working on complex projects as a team

Worked for VisionWorks Inc. the parent company for a small business in Mineral, Wa creating multiple types of electronic devices.

- Mid-January through Late August
- Learned many manufacturing processes for plastic, metal, and electronics.
- Taught me extreme attention to detail and consistency in things I make/repair

Worked May 25th, 2021 - January 1st, 2022 at Rivers Coffeehouse and Bistro located in Morton, Wa as a Line Cook and Barista

- Worked under intermittent high pressure
- Handled a base level of financials for the restaurant such as counting out and verifying sales reports at close, and certifying the accuracy of the work of the previous night's staff when opening the till.

Skills and Relevant Education

- Have been working with mechanical, fluid, and electrical systems over the past 4 years
- Have broken down and repaired a variety of mechanical equipment
- Have taken 74 credits of General Education college courses through Centralia College with an emphasis on Trades Skills classes to continue working towards getting my Associates Degree in Welding Technology by June of 2023.
- Currently hold a CPR, AED, and Basic First Aid card from the American Safety and Health Institute
- Have been Mig welding for over 4 years
- Have picked up Aluminum Tig welding recently as a portion of one of my college classes Spring Quarter of 2022 at Centralia College and have already shown moderate proficiency in the use of the material.
