Hiring Manager,
Braun Northwest
150 NorthStar Road
Chehalis, Wa. 98532

Dear Hiring Manager,

I was excited to find that Braun Northwest was hiring for an emergency response craftsman/ assembler. I have always been a very intuitive person wanting to understand how things work. I am the type of person who can look at pieces and see the whole picture and clearly understand how it works.

I believe my interest in the industry and the knowledge I have with welding would be a great start in learning a new trade that can allow me to grow and advance with a company within my community.

I look forward to hearing from you soon

Sincerely,
Dalton Bushnell
