Hiring Manager

Automotive Paint Prep

Braun Northwest

150 Northstar Rd Chehalis, WA 98532

Dear Hiring Manager:

I am eager to apply for the position of Automotive Paint Prep for Braun Northwest. My goal as a paint prepper is to complete all paint preparation processes for the vehicles according to the factory specification. I am delighted to be considered for the position at such a great company, the leading provider of specialty emergency response vehicles to the western United States.

I have a year of experience as an Auto Body Technician, I gathered most of my experience at New Market Skills Center. I not only have in-house training for this position, but I also possess multiple certifications for Auto Body repair through I-CAR. Such as Surface Preparation and Masking, Refinishing and Corrosion Protection and Personal Safety. This has given me more overall knowledge in the Auto Body repair industry, and I am still working on gathering more knowledge and certificates through I-CAR so I can continuously grow in the position being offered.

In my time at New Market Skills Center, we learned how to weld. We were taught how to plastic repair a bumper, along with learning how to shoot primer in a painting booth once all repairs are done. We were also taught how to measure and weigh out paint for a paint job. My mentor had me under his wing and guided me through the entire course of Auto Body Repair. He believed that I would do great as an Auto Body Technician. I am extremely excited to pursue my passion for auto repair, and hopefully that starts with this position.

Thank you for considering me for the Automotive Paint Prep position at Braun Northwest. I look forward to having further discussions regarding this position and how I can grow with the company.

Sincerely,

Avin Martinez
