Experience

- Currently working as a welder at Elsteel (Pvt) Ltd. for 8 years.

Elsteel is one of the largest industrial low voltage panel board manufactures to the world. The main factory base on Sri Lanka and I'm working at the welding department as a team presently in this production process. I have to weld techno Model covers and doors, plug and power doors, inner doors, mounting bracket, fixing rails, lifting eye, door lock and release pins/DB boxes, base frame and different Sizes of panel boxes(Made stainless steel and mild steel with powder corded).

Skill Highlights

- **Good communication skills:** Can communicate clearly and effectively in order to work and accomplish a task.
- **Good team worker:** Ability to work in a team in achieving a common goal.
- **Creativity:** Creative in thinking, working and managing things.
