**Braun Northwest Inc.**

150 Northstar Rd.  
Chehalis, WA 98532

Dear Braun NW,

After learning about the many entry level positions you have open, I was very excited to contact you about the Automotive Paint Prep position. Going over the details and requirements of the job, I believe that the wants and needs of the company align with my values extremely well.

While I may only have a year of work experience, I was able to pick up some great work ethic that would be very valuable at Braun. I am a very quick learner so I would be able to pick up the new concepts of the job extremely easily through training. I pride myself in always being on time to work, being reliable on and off the clock, and always making sure my best work goes into every shift. I know that with the right training, I would be a great addition to Braun.

I am excited at this opportunity to start my career. I look forward to hearing from you at your earliest convenience. On an endnote, I am also interested in any other entry level position you may have open that you believe I could be a good fit for.

Sincerely,

Collin Coxwell
