Profile

As an individual, I take pride in being honest, hardworking, and a team player. I have a B2 level of proficiency in the English language and strive to continuously improve my skills. I believe in the power of collaboration and am always eager to work with others towards a common goal. In addition, I have a growth mindset and am open to learning new things to better myself both personally and professionally. Whether it's through reading, taking courses, or seeking feedback, I'm always looking for ways to enhance my abilities. Thank you for taking the time to read about me, and I look forward to the opportunity to contribute to any team or organization I work with.

Studies and education

Mechanical Engineering (English), Adnan Menderes University

Aydin, Turkey

Work experience

Intern, PEKPAN

Aydin, Turkey | 06.27.2022 - 08.26.2022

I completed an internship at Pekpan company where I had the chance to apply my theoretical knowledge of machining, gas shielded welding (MAG/MIG), and plastic forming methods. I also improved my skills by using SolidWorks and DraftSight programs, and gained experience in maintenance and repair areas.

Long Term Engineer Intern, HAUS Makina

Aydin, Turkey | 02.27.2023 - 06.02.2023

I am working as a long-term intern at Haus Makina company. During my time as an intern, I have been working in the Methods department using SolidWorks to carry out factory improvement work, machine design, mechanism design, and various part designs. I have also assisted in bringing these designs to life using Excel, SolidWorks, and Canias ERP programs.
