Dear BraunNW hiring associates,

I have been told by many of my friends and family that I should apply to become a part of the team and that it would be a good fit for me.

I would make a positive impact on the assembly team line because I have 2 years of experience of automotive repair. I worked at Awesome ford for 2 years which taught me many things along the lines of mechanics and would like try to find another place I can put my experience to use. When I looked into the company and I seen that I had some eligible experience and that it looks enjoyable and I would be more than willing to learn new things.

Please review the resume I have submitted to look deeper in my skills and work history to get a better understanding of my capabilities.

Thank you for your time and consideration.

Sincerely,

Dyllon Dublin
