Work Experience

Owner/Detailer

1NINE1Detailing - Chehalis, WA
July 2016 to Present

I own and operate 1NINE1Detailing, in Chehalis, Wa., a car detailing operation. I graduated from Smart Detailing University in May 2016 with certificates in Paint Restoration and Auto Reconditioning.

- As a business owner, I understand the value of showing up on time and the importance of quality of work.
- I perform all interior detailing using vacuums, hand brushes and a hot-water extraction machine (when needed). I perform exterior detailing using a pressure washer (when and if needed), buffers, polishers and various brushes. I have a high knowledge level of the various detailing products used for the interior, exterior and engine bay and work to the highest standards.
- I operate with an open schedule, flexible for any hours needed

Detailer

Black Hills Auto Grooming - Rapid City, SD
May 2023 to July 2023

My wife and I went to Rapid City for a 2 month trip, I got a job at Black Hills Auto Grooming, letting them know I was only gonna be there for 2 months. I detailed 49 cars in the 7 weeks I was employed there, 95% being for the BUICK/GMC & Nissan dealerships in town.

Detail Manager

Centralia Auto Center - Centralia, WA
February 2020 to February 2023

I managed the detail shop for a busy automotive repair shop and car lot. My duties included ordering and maintaining supplies, assigning work to 3 detailers, shuttling customer and in-house cars, and detailing when needed. I also assisted the repair shop with things like dismounting and mounting tires when needed, and answering phone calls/helping customers when we were busy.

Paint Mixer/Deliver Driver

Wesco Autobody Supply - Centralia, WA
March 2019 to February 2020

I mixed automotive paint, delivered collision repair supplies, maintained the store front and answered phones/customer service

Detailer

Titus-Will Automotive Group - Olympia, WA

October 2018 to March 2019

I was assigned to the recon shop for Titus-Will Chevrolet/Hyundai in Tumwater. I was on a 2 man team where all I did was interiors. We shared prep duties on each car, doing 3 cars a day. I also was assigned laundry duty, doing up to 6 loads a day.

Wing Assembler B

Boeing Airplane Company - Renton, WA

July 2011 to August 2014

I started the assembly of wings on Boeing 737's using all established processes and procedures in accordance with engineering specifications. My duties included: Planning and staging the necessary parts, fasteners and tooling, loading wing spars into the jig, hanging the ribs with temporary fasteners, drilling holes and installing the final fasteners. Once complete, I drilled holes in the top panel and shimmed any gaps by hand per procedure.

- I was also the Safety Focal for my work area. Those duties included weekly safety meeting with management, stocking first aid kits, talking with my crew weekly, and addressing any safety issues my crew or myself found.
- I also recommended a process improvement and the company adopted a manual of each individual area of wing assembly including photographs, showing all lessons learned and the tricks and tips for each area allowing most mechanics to install internal wing parts maintaining schedule adherence.
- I utilized the company computer work control program to track work and work completion.
- Worked with Quality Assurance personnel for inspection of all completed work to ensure first time quality.

Delivery Driver

Dale's Delivery Service - Poulsbo, WA

March 2007 to July 2011

I delivered collision repair, and general automotive repair parts for multiple companies (Keystone, LKQ and Performance Radiator) on a large route covering around 400 miles a day. I worked with the supply companies by planning what components for the day's deliveries needed to be loaded in what order and maintained the proper inventory and manifest of received parts. I planned my route based on the load making on-time deliveries. I handled various payment forms, maintained an accurate manifest of my on-hand parts, used my exceptional customer service skills not only representing the delivery company but the parts supply companies with customers when dealing with deliveries, returns or discrepancies.

Hazardous Waste Handler/Tank Cleaner

Puget Sound Naval Shipyard - Bremerton, WA

May 2005 to February 2007

I started off cleaning various tanks and bilges on naval submarines and aircraft carriers, using various methods from simple cleaners to heated pressure washers. I also set up and used air powered pumps to pump grey water off the boats into storage tanks.

- I accepted a job in the Hazardous Waste program, and became a certified Hazardous Waste Handler. My duties included: Collecting various generated wastes throughout the entire shipyard, processing the waste, packaging it for shipping, create a manifest, and assist loading on the truck for shipping to the disposal site.
- I was on the Safety Committee, and was also the Recreation Committee Chairmen for my shop.
