About Me

My name is Colin Cearley, I live in Onalaska, Wa, and aspire to one day work a career job in the mechanic field. I spend most of my time outdoors and in the shop working with my hands and learning as much as possible about the things I take pride in such as automotive maintenance & repair, woodworking, and working with animals. I have a fair amount of experience when it comes to customer service and being able to communicate when issues arise and work well under pressure and time restrictions. I am known to show up on time and to work until things are either done or convenient enough for others to take over on a task when I am not around.
