

April 24, 2024

Dear Braum NW Inc:

I am submitting this application in response to the job listing for an assembly worker. I hope in this position show your company my dedication and willingness to both work and learn as I continue with you for the foreseeable future

Although my past employment may not be directly related to the job as an assembly technician, it does require many relevant skills to the position. Most of my work has placed me in positions where I am working under loose supervision, and directly under the upper regional management for the company. I have also studied in the field of Industrial Robotics Repair. These classes have provided me with a deep understanding of the process required for troubleshooting and repairing things in an industrial setting in an efficient and timely manner. Additionally, they have provided me with an understanding of how to read prints, use tools, and the required safety understanding for working in a manufacturing setting.

Thank you for your time and consideration for the position. I look forward to hearing back from you regarding the assembly worker position within the company. If you have any further questions regarding my resume please do not hesitate to reach out to me using either the email or phone number provided on my resume.

Sincerely,

Christopher Abarta
